Attention Firearms Applicant:

If this is your first time submitting an application for a Firearms Purchaser's Identification Card, and a Permit to Purchase a Handgun, please follow these instructions. All applicants must be fingerprinted. Effective February 1, 2010, fingerprinting will no longer be performed at the Police Department. Sagem Morpho Inc will perform all fingerprinting for our Police Department. All applicants must make an appointment with 1 of the local MorphoTrak facilities. Please see the attached MorphoTrak Firearms Licensing Form (form# NJAPS2, Version 4.0) for complete fingerprinting instructions. **Please read and follow the instructions carefully.** Voorhees Police cannot be held responsible for fees incurred upon you if you neglect to follow MorphoTrak's instructions. Once you have been fingerprinted you must return to the Police Department with your completed application and Consent for Mental Health Form (do not sign this form until in the presence of the Firearms Identification Clerk). Please be advised, I cannot begin the application process until I have confirmation you have completed the fingerprinting process.

OR If you have ever been fingerprinted for Firearms within the State of New Jersey in the past, and require a replacement Firearms Identification Card or Permit(s) to Purchase a Handgun, you must complete the attached application as stated above. In addition, you must complete a Criminal History Request Form (this is a yellow form) and submit a cashier's check or money order to the Division of State Police SBI in the amount of \$18.00. This is turned in at the Police Department along with your completed application.

An additional fee of \$5.00 for a Firearms Purchaser's ID card and \$2.00 for each permit to Purchase a Handgun are due to the Voorhees Township Police Department. Acceptable forms of payment for these fees are cash, personal check, or a separate money order.
